## DUCHESS OF MARLBOROUGH GOES TO SOUTH OF FRANCE

Takes Two Sons to Visit Her Mother, Mrs. O. H. P. Belmont.

London, Feb. 9.—The duchess of Marlborough and her two sons left London for the south of France yesterday to join Mr. and Mrs. O. H. P. Belmont at Beaulieu.

This was in accordance with the arrangements by which the children spend half of each year with the mother and half with the father.

## BOY STEALS STREET CAR; HE IS CHASED TWO MILES

Pummeled and Arrested, but Says He Had a Good Time.

Cincinnati, O., Feb. 9.—Charles Dillard, a colored youth, early yesterday morning stole a street car from a car barn here and was chased two miles, the end coming when the circuit breakers gave way.

He was pursued by employees in another car and pummeled and arrested at the end, but he says he had a "mighty good time."

## LODGE FAVORS REVISION.

The Senator Resents a Statement to the Contrary.

Washington, D. C., Feb. 9.—Senator Lodge of Massachusetts is angry over a statement in a Boston newspaper that he had denounced as "impertinent and insolent" a letter from Governor Curtis of his state to President Roosevelt, suggesting an extra session of Congress for the purpose of considering tariff reciprocity legislation. Mr. Lodge said the statement was "an absolute falsehood, a malicious invention of the writer."

"There has been for two or three years a constant reiteration of the statement that I am opposed to any revision of the tariff, and the fact that I have never held or uttered any such opinion, but have constantly expressed quite a contrary view, had no effect on those who make and reiterate the assertion. In 1904 my colleague, Senator Crane, and I expressed our opinion in favor of tariff revision. This was months before the Massachusetts Republican convention, with our entire encouragement, declared in favor of revision. Very little can be done to promote tariff legislation in the Senate, because all such bills must originate in the House, a fact generally overlooked. Nevertheless, efforts of the Massachusetts delegation in the House at the last session to bring about tariff revision had the cordial sympathy of both Senator Crane and myself."

## OREGON FLOOD SUBSIDES.

Danger in the Willamette Valley at Portland Passes.

Portland, Ore., Feb. 9.—At midnight the crest of the snow that has been in the Willamette valley passed Portland, and it is predicted that the river will soon begin to fall. In eastern Oregon and along the Columbia the rivers are bank full, but no danger is anticipated. On the other hand the thaw reached the eastern Oregon stock grazing district just in time to save thousands of dollars' worth of stock from starvation. The railroads are slowly getting order out of chaos, and everything indicates a resumption of normal traffic conditions within the next twenty-four hours.

## TO CURE A COLD IN ONE DAY.

Take LAXATIVE BROMO QUININE TABLETS. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

## Feeding Green Cut Bone Pays.

Mr. A. F. Hunter, who is one of the regular contributors to the New England Farmer, not long ago said in the columns of that paper: "Feeding fresh cut bone to fowls, to induce abundant laying, has proved a decidedly profitable thing. The bones are rich in animal matter, and contain lime of which the egg shells are made, and hence fed on fresh cut bone will lay a large number of eggs that fed on bone. Not only will they lay a larger number of eggs, but the eggs will be stronger-bodied, will be better eggs, and if incubated will have better and stronger chicks." C. S. Page, of Hyde Park, Vt., on receipt of \$3.50 will forward to anyone a 500-pound barrel of green cut bone, prepaying railroad freight to any station in New England or middle states.

## WORLD'S BIGGEST DRYDOCK

About to be Constructed Near San Francisco

## NAVY ENCOURAGEMENT

One Basin Will Be Able to Hold Any Two Battleships—Sea Girt Abandoned as Place for Next Rifle Tournament.

Washington, Feb. 9.—The largest drydock in the world, with a stone and concrete basin big enough to hold any two of the battleships of the United States navy at one time, is about to be constructed at Hunters' Point, near San Francisco, by the San Francisco Dry Dock company at a cost of \$1,250,000, adjacent to the two docks that the company already has in operation, and the work will be rushed to a speedy completion. It is understood that the work has been undertaken with the encouragement of the navy department, which is also said to have expressed a wish that it be carried to an early completion. It is said that the new dock will be 1,050 feet in length, 170 feet longer than the famous dock at Glasgow, and 225 feet longer than the Alexandra dock in Belfast harbor.

## Sea Girt Abandoned.

The next national rifle match will not take place at Sea Girt, N. J. Arrangements have now been made to have this important meet occur at Camp Perry, Ottawa county, O. The match will begin on August 28, preceded by two days of preliminary practice. It is expected that the match will be the largest ever held in this country. The interest in rifle practice has increased materially in the last few years, and there are indications that nearly all of the states will send teams to the meet. In addition, there will be teams representing the infantry and cavalry of the army, the marine corps, the navy and possibly the military academy and the naval academy. There have been some changes in the system of firing as a result of the complaint and criticisms of the experts who attended the competition of 1906 at Sea Girt.

## Indian Bill Goes Through Senate.

Washington, D. C., Feb. 9.—The Senate yesterday passed the Indian appropriation bill.

## LOCKED UP GUNS, HE SAYS.

Former Sergeant Jackson Testifies as to the Brownsville Affair.

Washington, D. C., Feb. 9.—George Jackson, formerly deputy sergeant of B company of the discharged negro soldiers, charged with participating in the Brownsville affray, testified yesterday before the Senate committee on military affairs.

He was the non-commissioned officer in charge of B company on the night of the affray and possessed the keys to the gun racks. He described the locks and the keys, each rack having two locks.

The locks, he said, were all different, with only one key to each. Jackson insisted that he counted the guns before he took charge for the day and night of August 13 and said all of the company guns were safely deposited and locked.

## SHORTS FAVORS CONTRACT; IS SURPRISED AT STEVENS.

Says Canal's Chief Engineer Has Agreed With His View Heretofore.

Washington, Feb. 9.—Chairman Shorts of the isthmian canal commission returned to Washington Thursday night and was at his office yesterday. He expressed himself unqualifiedly in favor of building the canal by contract. He said the great advantage accruing therefrom would be the witnessing of immediate results.

"Contractors," he said, "have solved the labor problem. They can get what they want, and we can only get what is left. Again, in constructing the canal they could bring into play their vast combined experience, skill and organization; and this necessarily would affect the completion of the work in much shorter time than if matters be allowed to go on as they are."

Mr. Shorts said he was much surprised to read the statement that Chief Engineer Stevens had indicated his intention to resign should the work be done by contract. He declared that Mr. Stevens had always favored the contract plan, and only recently had written him commending the idea in the strongest possible terms. Besides, the contract plan could not possibly interfere with Mr. Stevens, because his authority would be supreme—and the contract so expressly provides.

## DEADLOCK ON IMMIGRATION BILL LIKELY TO KILL IT.

Indications Are That Congress Will Not Pass Measure.

Washington, Feb. 9.—There is yet no prospect of an agreement on the pending bill to amend the immigration laws, and the indications are that the bill will fail with the close of the Fifty-ninth Congress.

The principal points of difference between the House and the Senate are the educational test, provided by a Senate amendment, and a House amendment introduced by Representative Littauer of New York waiving requirements as to the amount of money an immigrant must have if the immigrant is fleeing from religious persecution. The Senate amendment opposes the latter amendment on the ground that it would open the doors wide for the unhindered admission of certain classes of immigrants. The educational test is opposed by the House conference.

The resolution offered by Representative Gardner of Massachusetts that the House conference be instructed to accept the Senate amendment and abandon the House amendment, is tied up in the committee on rules of the House.

## BEWARE OF BRIGHTS DISEASE

A Prescription to Prevent Serious Kidney Disease

## MANY WAIT TOO LONG

Lame Back and Urinary Troubles Are Danger Signals—What to Do—Mix It at Home—Splendid for Rheumatism.

More people succumb each year to some form of kidney trouble than to any other cause. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes or dropsy. When either of these diseases are suspected the sufferer should at once seek the best medical attention possible. Consult only a good, first-class physician, leave patent medicines alone.

There are many of the lesser symptoms of kidney trouble which can be treated at home, is stated by a well known authority. For some of these, such as backache, pain in the region of the kidneys, weak bladder, frequency (especially at night), painful, scalding and other urinary troubles, try the following simple home remedy: Fluid Extract Dandelion, one-half ounce, Compound Kargon, one ounce, Compound Syrup Sarsaparilla, three ounces. These vegetable ingredients are harmless and can be obtained at any good prescription pharmacy and anyone can mix them by shaking well in a bottle. The dose for adults is a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism, either, because it acts directly upon the kidneys and blood. It cleans the clogged up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter, which if not eliminated, remain in the blood, decompose and settle about the joints and muscular tissues, causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

## SEEKING SPECIAL AGENTS.

The Move Is Due to the Hanks-Harriman Case.

Washington, Feb. 9.—Aroused by the facts which have been brought to light in connection with the employment as "special agents" of Messrs. Hanks and Harriman to assist the interstate commerce commission, Senator Tillman yesterday introduced a resolution in the Senate calling for facts and figures about the special agents now employed in the various executive departments. The resolution was adopted. Senator Tillman charged that they had increased in number since last session from about 750 to 3,000.

## DARLING TO BE REAPPOINTED.

## HIGH SINGLE OF LEAGUE

Made by Hepburn of the Rushers Last Night

## KNOCKED DOWN 120 PINS

Double-header Played, Carvers Taking Three Straight From Nippers and Lumpers Defeating the Rushers Two Out of Three.

A double header was rolled last evening between the Carvers and Nippers and the Lumpers and Rushers teams of the candle pin league. The carvers defeated their opponents in one, two, three order by large margins. The score was as follows:

CARVERS.			
Rossi	71	83	100-254
Cardi	105	80	92-289
Blanchi	85	84	86-255
Gabeloni	88	80	86-272

Mariani	77	86	88-251
E. Smith	87	70	64-230
Totals	414	412	406-1282

The Lumpers defeated the Rushers by winning the second and third string after the former team had won the first string by a single pin.

The score:

LUMPERS.			
Gilley	101	92	100-293
Jones	81	62	88-223
J. Fraser	93	95	91-279
Cordiner	84	83	98-264
Brown	103	108	90-301
Totals	462	440	467-1372

RUSHERS.			
Williams	77	102	89-269
Hepburn	120	79	73-273
Carwell	82	71	77-230
Attridge	96	80	75-251
Alexander	88	91	88-267
Totals	463	424	402-1289

Hepburn made the single high string of the evening, and the highest to date of the series, with 120 pins down in his first ten boxes. Cardi and Brown had second high strings with 108 each. Brown made the high three string total for the evening, with 301, and Gilley was second with 293.

## MISSING YOUNG WOMAN FOUND IN DOCTOR'S HOME.

Friends Feared Miss Helen E. Anthony Had Met Foul Play.

Philadelphia, Feb. 9.—Miss Helen E. Anthony, a wealthy woman of Gouverneur, N. Y., who disappeared while on a shopping tour last Wednesday, and who, it was feared, might have been the victim of foul play, has been found at the home of her physician, Dr. J. Bay and Kane of 211 South Seventeenth street.

Miss Anthony had suffered from a nervous complaint for some years, and was being treated by Dr. Kane. She was attacked with illness while in a large department store, and went hurriedly to the home of Dr. Kane, where she has since been.

Miss Anthony, who has been living at the fashionable Blenheim apartments, had a large sum of money in her possession.
